

## Receipt Bank - the receipt and invoice feed for Xero

Receipt Bank converts those annoying bits of paper - receipts and invoices - into data you and your company can use!

- Receipt Bank will digitise your receipt, invoice or document.
- Extract the data from your receipt and invoice.
- Present the data in a easy intuitive format for review.
- Publish across to Xero giving you and your Account/Bookkeeper real time information.

## How do you submit your Receipts & Invoices to be processed?

- Receipt Bank App (iPhone & Android)

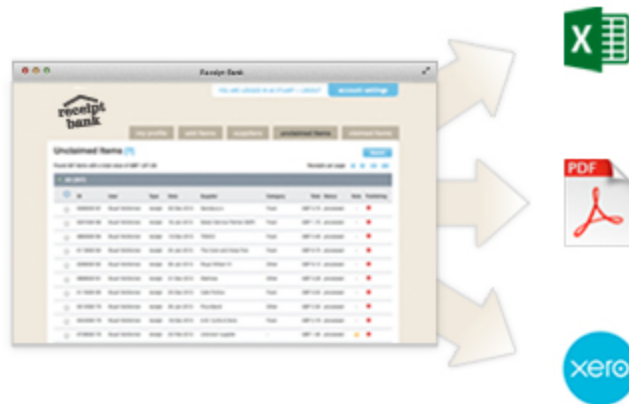

- Email
- Dropbox
- Post
- Direct upload

.....and much more

### What do you do with the data extracted from Receipt Bank?

You review the data and publish it across to Xero.

Your data is safely stored in Receipt Bank which includes the image of the receipt or invoice.

### What does Receipt Bank not do?

- We don't extract handwritten notes on receipts and invoices
- We don't return scanned documents (these are disposed of securely)
- We don't handle Bank/credit card/Oyster card statements, ATM receipts or any receipts showing full credit card numbers
- We don't calculate Tax - we will extract the Tax amount if shown on the receipt or invoice
